BACK CONSTRUCTION NAMED 2026 BBB TORCH AWARD FOR ETHICS WINNER

Lexington remodeling company receives regional recognition during its 45th year in business

LEXINGTON, KY (October 29, 2026): BACK Construction has been named the 2026 BBB Torch Award for Ethics winner in the Medium Business Category (51–175 employees) by the Better Business Bureau serving Greater Kentucky and South Central Indiana.

The award recognizes businesses whose leaders demonstrate personal character and whose organizational practices reflect high standards of ethics and foster trust. BACK will be honored at the BBB Torch Awards ceremony on November 12 at The Olmsted in Louisville.

For a residential remodeling company, trust is built through decisions made long before the final walkthrough. Homeowners invite a team into their homes, rely on its guidance and expect honest communication, accountability and care throughout the process.

Founded in 1981, BACK Construction has served Lexington and Central Kentucky for 45 years. Today, the company is 100% employee-owned, bringing architecture, design, planning and construction together under one roof. Its people share responsibility for the experience homeowners have with BACK, from the first conversation through project completion.

The recognition reflects the importance BACK places on how work is conducted, how people are treated and how trust is earned over time. The company joins fellow winners and finalists from across the region in celebrating ethical business practices.

ABOUT BACK CONSTRUCTION

BACK Construction is a 100% employee-owned residential design-build remodeling company serving Lexington and Central Kentucky since 1981. Its services include architecture and design, remodeling, general contracting, roofing, windows and doors, and home services.
